French windows now opened to a broad terrace; and in the place of honor at the head of the room stood a bust of Napoleon, the fresco above representing Victory descending with a laurel wreath.

The young people had been sailing on the river, the silver winds of which were visible in the depth of the valley. Now they were scat-edict. Waldemar's leave of absence extended tered in groups about the 100m, as inclination to the time when cold winds and falling leaves drew them together. Herr Steinthal had an only son, and Monsieur Delapierre an only daughter, and the two worthy and careful fathers, putting their heads together concluded that the best and most natural thing in the world would be the union of the two houses by the marriage of Waldemar and Lucienge. One little year! Who can say what event it may bring forth? Who can calculate what changes may come with the changing seasons? In 1812 France and Prussia were allies; but as early as March, 1813, war had been declared between them. Various successes and defeats

attended the conflicting armies, till the battle of Leipsie turned the tide of victory in favor of the Germans. How could the German youth refuse to draw the sword for their country's freedom? Who refuse to enroll himself under her banner at her call? Not Waldemar Stienthal. Carried away by the ardent hope for the liberation of Germany, he had rushed to take part in the struggle, perhaps scarcely prepared at the moment for the personal loss that must ensue.

The sun was setting, lurid through the smoke that hung over the battle field of Leipsic, on the evening of the 17th of October. The roar of the silence of death. Thousands of brave men, who in the morning had advanced to the combat full of ardor and hopes, lay stretched cold and lifeless on the plain. That day victory had declared for Germany, and with victory the yoke that had pressed on the beloved fatherland was broken forever. The French Empire had cast itself against the strong German heart, and been broken like a hollow earthern vessel against a rock. So had the Roman armies been driven back by Arminius. So had the burning eloquence of Luther destroyed the supremacy of the Pope; sa shall a people conquer who, to use the words of Korner, think no sacrifice too great for that first of mortal blessings, their

Heinrich Bergholt struck up the well known strain, "Das Monsieur Delapierre, in Paris, and Herr Schwert," and soon the wild chorus, 'Hurrah, hurrah!' rang through the battlefield.

With aching heart. Steinthal endeavored to restore his friend to consciousness; his tears falling fast the while over the well-known face, on which the seal of death was already set. But it seemed to be Gros Noir licking his master's cold face that at the last recalled for a moment the fast ebbing tide of life. Eugene opened his eyes, and on seeing Waldemar, smiled faintly. 'Brother,' he murmured, endeavoring to hold

out his hand. Waldemar clasped it, his strong breast heaving with the emotions and recollections that word had called forth. Eugene made a sign for Waldemar to raise him. With feeble hand he

Delapierre lay dead in Waldemar's arms. Waldemar covered the form of his friend with the cloak on which he had been laid, and leaving Gros Noir stretched beside the body, retired to a little distance, where, his face buried in his hands, he gave himself up to grief. Not long, however, was he left to the indulgence of his sorrow. Suddenly the bugles sounded to horse-the French were retreating under the cover of the nighi. The events of that memorable retreat are matters of history. On the night of the 19th, Waldemar Steinthal slept in

his father's house. Herr Steinthal, on the first rumor of the German outbreak, had conveyed himself and his money bags to a place of safety, and the house had been occupied by the sick and wounded ever since the battle of Lutzen. Waldemar, however found a small room where he could be alone. He had just been assisting to lay in the grave his two dearest friends, Eugene Delapierre and the tender-hearted young Ludwig Krone, killed in the melce when the explosion took I also am weary. Good-night.' place at the Lindenau bridge.

Now at last, Waldemar had time to give to sorrow. He opened the packet taken from the breast of Eugene's coat. The first thing that met his eyes was a beautifully executed miniature of Lucienne. There were the rosy lips he had kissed; there the dark eyes that had looked lovingly into his; there the abundant and glossy hair, a lock of which still rested next his heart. He raised the portait to his lips. Alas! never more would he meet the light of those speaking eyes-never more bask in the sunny smile of which the picture gave a faint reflex. With a bursting sigh he laid the minature by his side, and took up the two or three letters that accompanied it. The sight of the well dressed to her brother; one seemed to be in answer to some question or expostulation.

'You ask me if I no longer love Waldemar Steinthal. As well ask me if I no longer breathe.' So it ran. 'You men make sacrifices for your emperor and your country; we woand tasted the wine, he strove to raise himself men also have sacrifices to make. You give your swords, we give our hearts; and mine lies torn and bleeding, broken by this bitter strife Only a cut about the head. Lieschen will think between all I hold dear. no wrong, but cruel fate that has come between us. Speak to me no more of marriage: henceforward I dedicate myself to my God, to the unfortunate, and to thee, my brother.'

Waldemar read no more. The letters did but confirm what he knew before.

'Oh, my country,' he cried aloud: 'thou hast cost me much.

Enormous Wealth of Own ver Mines-Useles

VIRGINIA CITY, May 23.—The yield of the Consolidated Virginia mine in March last was \$3,634,298 29. These figures are official, as I got them from Mr. Taylor, principal bookkeeper. Since this mine commenced paying dividends its stockholders have received \$20, 000,000 in round numbers. The California mine, the richest known mine in the world. paid its first monthly dividend on the 15th ult., \$1,080,000, or \$2 per share for each of its 540. 000 shares. These two mines pay monthly dividends of \$2,160,000. Beginning in July, the California mine is expected to pay a monththeir work adjourned from day to day until ly dividend of \$3 per share, or \$2,620,000.—
The present price per share of these stocks is respectively: California, \$80; Consolidated Virginia, \$73. Like all mining stocks they are subject to startling fluctuations. The knowing ones, however, do not look for any material changes in the prices of these two stocks this Summer. It is not altogether a matter of speculation with regard to these mines. What ore they contain is pretty closely ascertained. At present there is enough first-class ore therein to

keep the mines going for at least three years. Col. Fair, Superintendent, is now erecting a new 80-stamp mill, in addition to the numersome unparalleled results from the Bonanza mines. Fair expects to turn out \$5,000,000 a month. He can do it. It is only a question of milling facilities. There is no lack of ore. In view of the stupendous wealth of these mines This is one of the most horrible and brutal the question often occurs to me: What will be the eventual limit of the wealth of the four gentlemen popularly known as the "Bonanza Kings!" People who have watched their fortunes with critical eves aver that they are now worth in money and property upwards of \$1000,000,000. It is a common remark here that Mackay has an income of \$800,000, gold. month. Since the California mine commenced paying dividends it must have added at least \$150,000 to his monthly income. I think I may say that his monthly income is in round numbers a million of dollars. Riley, F C Robbins, L C Hanes, RS Adderton, John W Finch and A S Spaugh And it was further ordered that any member of the party from the county attending either Convention should be considered a delegate.

Resolved, That we heartily endorse the course pursued by our member of Congress, Hon A. M. Scales, and do recommend him as a candidate for re-election.

#### Hon. Wm. M. Robbins RE-NOMINATED.

No doubt was entertained that Mr. Robbins would be renominated for Congress at the Conservative-Democratic Convention of this District, at Taylorsville, Alexander county, which met on the 8th inst, But his friends will be more than pleased to learn that his nomination was unanimous, on the first ballot, without any manifest opposition.

Mr. Robbins has proven himself an able and faithful Representative, and is one of the leading members of Congress. He will most assuredly be re-elected, and again carry every comparison is admissible evidence on the trial county in this District, by increased majorities; the puerile efforts of his enemies to defame him, will sink into utter insignificance.

Wm. B. Glenn, Esq., of this county, was chosen Presidential Elector. Mr. Glenn is well known as one of the rising young gentlemen of the State, is an able and pleasant speaker, and will perform his duty, as Elector, to the full satisfaction of all interested.

F. E. Shober, Esq., of Rowan, and G. M. Mathes, Esq., of Forsyth, were appointed delegates to the St. Louis Convention, with J. B. Hussey, Esq., of Iredell, and J. W. Mauney, Esq., of Rowan, alternates.

The State Senatorial Convention was held the same day, and Thos. A. Nicholson, Esq., of Iredell, and Dr. Tyre York, of Wilkes, were nominated to represent Iredell, Alexander and Wilkes in the State Senate.

FIFTH DISTRICT .- At the Convention which assembled in Greensboro, on Monday, Gen. A. M. Scales was nominated for Congress, and F. C. Robbins, of Davidson, Presidential Elector, Delegates to the St. Louis Convention: Col. J. N. Staples, of Guilford, and Col. E. B. Withers, of Caswell. Alternates, M. S. Robbins, of the Court below. Randolph, and Dr. Wm. Means, of Davidson. The delegates uninstructed.

Railroad Company, from Halifax. The general rule as to contributory negligence is, that when the injury arises neither from malice, design, nor wanton and gross neglect, but simply the neglect of ordinary care, and the parties are mutually in fault, the negligence of both being the immediate and proximate cause of the injury, a recovery is denied, upon the ground that the injured party must be

taken to have brought the injury upon himself. This general rule, however, is subject to certain qualifications. For instance: (1.) The injured party, although in fault to some extent, at the same time may be entitled

to damages for an injury which could not have been avoided by ordinary care on his part. (2.) When the negligence of the defendant is the proximate cause of the injury, but that of the plaintiff only remote, consisting of some act or omission not occurring at the time of the injury; in such cases an action for damages may

be maintained. W. M. Smith vs. Rufus Barringer, from Cabar-

To exonerate such defendant from accounting prior to a certain date, is not sufficient therefor, that he should state in his answer, that on that day the plaintiff "called upon him for a dissolution and a final settlement of the firm affairs;" and that the plaintiff at the same time signed a receipt, which cannot be construed with any certainty, as purporting to release the prior inlebtedness of the defendant; when there is no sufficient averment in such answer of a release or of accord and satisfaction, or of an account stated and agreed to.

The Speaker pro tem. replied that there was no rule on the subject. hear a colloquy. The Speaker finally put the question to the House on Hunton's motion, and Garheld, of Ohio, called for the yeas and nays, and they

were ordered. Then the Republicans resorted to the plan of withholding their votes, so as to defeat action by want of a quorum. After the roll was called but before the announcement of the result, Springer, of Illinois, rose to a parliamentary inquiry, when Blaine immediately started to his feet and objected.

Springer suggested to Blaine that he was entirely forgetting his position, and the Speaker pro tem. calmly explained that it was always the practice of the Chair to hear a parliament ary inquiry.

Blaine (during the roll call)-Never. The Speaker pro tem .- The roll call has been completed.

Blaine-Never such a thing has been done. The Speaker pro tem. (with much severity of manner)—It is highly improper and hardly descent for the gentleman to confer with the Chanin that peculiar style.

Blaine-The gentleman's (Springer's) inquiy is merely dilatory. Springer-I deny the gentleman's right to npugn my motives.

Blaine-The vote has been read; I demand that it be announced. (Shouts of order, order, from the Democratic side of the House.) Springer-I demand that the gentleman from Maine take his seat and be in order.

Blaine-I am in order. The Speaker pro tem .- If the gentleman from Maine will not take his seat when he is properly called to order, the Chair will not only require him to do so under the rules, but will call on the officers of the House to enforce its orders. (Applause on the Democratic'side of

Foster, of Ohio, (in an undertone)-Call them n! fetch them on!

Blaine, (taking his seat)-I will be seated with pleasure when others are. The Speaker pro tem .- The gentleman from Maine stated that the Chair should have announced the vote before the Chair received it. The Chair had not the vote at the time. The imputation was made, which was intended to go to the country as an imputation on the fairness of the Chair. The Chair says this to the exclusion-as it has a right-of any othermember from discussing the subject further. The Reidsville News says: After all the comdaints about tobacco plants, we would not be surprised if, with propitious seasons, the farmers will be able to make a respectable crop of tobacco. We believe a good many who a few weeks ago thought it impossible for them to have any plants in time, have found that the favorable weather since will bring them on in olerable good season. Yet, an average crop cannot be expected, and the planters did no intend at the beginning of the year to make a large crop of tobacco.

How is it that some persons make such an easy living out of the ground while others find it such a hard task? We were led to this reflection by the following extract from the Dur ham Tobacco Plant :- Danville Times.

After the addresses, Dr. Craven presented the diplomas and medals, during which he made a touching allusion to the sad fact that one of the class had died last March, and his diploma and came the presentation of a beautiful copy of the Holy Bible to each niember of the class, by Rev. S. S. Bryant of Missouri. The venerable divine did full justice to his mission, and I think his words of wise counsel will be duly weighed by those to whom they were tendered.

Dr. Craven then announced that Rev. Dr. Talmadge, of Brooklyn, N. Y., would now deliver an address.

The Doctor came forward and remarked that when a person was sent for to address Literary Societies, it was expected he would talk very learned, and accordingly he had prepared two lectures for the occasion; but unfortunately had left them both at home, so that he would be compelled to give them a plain, simple talk upon common matter of fact things, and then proceeded to introduce to us his portrait gallery of the different characters of which society is composed; and that was his subject, and he drew his delineations with a master

The address certainly was a good thing, and yet it is hard to tell in what its main excellence consisted; the best definition I can give of it is that it was in the eloquence of magnetism :- he drew you to him and held you spell-bound by an irresistible force, and if he would have continued to speak for days instend of hours, we would have listened to the ond with unflagging interest,-everybody seemed more than pleased.

The Salisbury Band furnished good music, and the Choir sang the anthem "Lift up your Heads oh ye Gates," and the notes still linger pleasantly on the car. THERE is no DOUBT in the MINDS of PERSONS who HAVE USED the different machines, that the WILSON is the cheapest, most durable, lightest running FIRST CLASS SEWING MACHINE EVER INVENTED, and best adapted to all kinds of FAMILY SEWING. These facts are proven and made PLAIN by the certificate of more than ONE HUNDRED NAMES of the BEST FAMILIES and most PRACTICAL CITIZENS of old reliable Salem and surrounding country. In the face of all these facts, is it not folly to buy a 70 dollar machine, either for CASH or MONTHLY payments? Will a first class, well balanced business man do this? A Frightened Tooth-Jerker.

But pay as you go.

Joe Balcom is one of those clever ingenious, accommodating fellows, who pretends to know everything, and to be able to do anything that anybody else can do. He gets his bread and butter by carpentering, although he assumes to be greatly above the business. In truth, he is a Jack at all trades and good at none. One day he learned that Dr. Rich, the destist, was talking about building an extension to his office, and he went down to see if he couldn't get the job. The servant admitted him, and informed him that the doctor was out, but was and began to look around him.

"A very cosy place, by jingoes!" said he .-"And Rich must be making lots of money here. Making it easy, too. Wish I had taken to tooth-jerking. It's nothing! any one that's got a nerve can do it. Confound carpentering. I believe I'll set up for a dentist."

He pondered on the subject for some time as he sat there alone, and concluded that it was just about easy and remunerative enough for him. He only wished he had a chance to learn a few of the slights of the business.

A chap who boarded with the dentist, and with him, while he was waiting for the dentist to return. So he tied a handkerchief around his face, and pulling his hair down over his eyes, to make himself look like one troubled with a raging tooth, he rushed into the waiting-room where Joe sat

"Where's the dentist?", he demanded, say-

"Not in," replied Joe.

"Not in! Confound these dentists for a lot of indifferent rascals. What do they care how much a man suffers?" and holding his jaw in his hands the "customer" strode backward and forward like a eaged lion. Joe's heart was melted, and an idea flashed through his head.

"I'll just try my hand on this fellow, and if I succeed I'll bid farewell to handsaw and jack plane forever," mused he.

"Well, if you are really suffering perhaps I can attend to you. What is it?" he asked. "A'tooth! A raging, terrible, devilish tooth!"

"I'll pull it out for you," said Joe, with a full display of his well known presumption. "All right. Hurry up."

"Take a seat." "Yes, yes. Fly around,' said the man, taking a seat in the operating chair.

Joe looked among the instruments, and selecting a pair of forceps approached the aching cavity, bent on giving relief and a display of his cleverness at the same time. The offending tooth was pointed out, and

Joe clapped the tool upon it firmly. It was an upper molar, and he was cautioned to give a WITH TWENTY ILLUSTRATIONS straight, steady pull. "All right," said Joe, "I understand," and

he humped himself for a long pull, a strong pull, and the first tooth-pulling he had ever done in his life.

"Steady," grunted the patient. Joe gave a "steady" pull, and without exert-

ing half the strength he had calculated to bestow, when, lo! out came a whole set offalse teeth!

With a yell of rage the subject of his experiment leaped from the operating chair, and Joe, believing that he had pulled the man's whole jaw out, made a dart for the front door, and started for home, where he remained concealed for a week. The joke got noised about, however, and Joe had to leave town, so badly did his friends plague him about it.

The Norwich (Conn.) Bulletin says: 'An up town man, who believes in self-improvement, suggested to his wife recently that they should argue some question frankly and freely every evening, and try to learn more of each other .-The question for the first night happened to be whether a woman could be expected to get along without a spring hat, and he took the affirmative; but when he was last seen he had climbed into the hay loft and was pulling the ladder up after him.'

A lady correspondent, who assumes to know how boys ought to be trained writes as follows: 'Oh, mothers! hunt out the soft, tender, genial side of your nature.' Mothers often do-with

When a person feels disposed to over estimate his own importance, let him remember that mankind got along very well before his birth, and that in all probability they will get along very well after his death.
